Public Hearing:

Benita Drew applied for rezoning of her downtown building from C-1 to C-2.

There were some questions about parking for this to be an apartment. Our code requires 1 and half parking spaces per building for dwellings. There is plenty of parking for that. Jason Drew made the comment about making parking in the back if necessary.

John made a motion to approve the rezoning and Steve seconded and passed with all ayes.

Meeting was adjourned at 6:09 PM.
